 Approximate direction of where the wrapping will be fused together.

 Recommended surface for printing of logotype.

- Print surface: 55 x 59 mm.
- Lined markings show approximate size of the wrapping.
- Max. size for logotypes: 35 x 17 mm.
- When using negative print, a white border will appear along the edges of the wrapping as the colors cannot be printed all the way to the line.
- The printing colors are water based. The colors are blended according to recommendations from the manufacturer to reach a result as close to Pantones Formula Guide as possible. Deviations to the Pantone Formula Guide may occur.
- We reserve the right to use photographs of finished products as reference material
